6.2 a) exam_scores exam student take-exam exam-id student id name dept_name tot_cred name time Mote: 设有个考试都有 人多加 Section see_id semester yeer Sect M course

6.1° 应该将只中对应B主键的外键设为notml. 这样的话、若某个A的tuple没有对应的只时,只BA combine 起来,对应B主键的外键为null,而not null 超名了这一问题

6.20

student (student_id, name, dept_name, tot_cred)
exam (exam_id, name, time)
section (course_id, sec_id, semester, year)

course (course_id, title, credits)

take_exam (student_id, exam_id, course_id, sec_id,
semester, year, exam_scores)
